

Concentrated American and French Oak Solution

PRODUCT DATA SHEET

TECHNICAL DATA

- Approx. weight per liter: 2.035 lbs/.9231 kg.
- pH 4.11
- TTB Registered
- Ships in 1 liter or 5 liter containers (larger vessels available upon request).
- Contains water, ethanol and American and French Oak. There are no other ingredients.
- The proprietary process naturally extracts the most prized and hard to extract oak compounds.

USAGE

- Emulates natural oak barrel mouthfeel and a nuanced oak flavor profile.
- Used in both alcoholic and non-alcoholic beverages.
- Instant results: Soluble Oak is typically added post fermentation.
- There are varied product options depending on desired proportions of different oaks and the various roast levels (unroasted, light, medium and dark roast).
- Average dosage of 1 to 6+ liters Soluble oak to 1,000 liters of your beverage.
- Mouthfeel is obtained with a very small dosage. The pronounced oak profile is increased with a higher dosage of Soluble Oak.
- Beverages with robust flavors tend to need a larger dosage of Soluble Oak.
- Add Soluble Oak after fermentation and after filtration.
- Always test the dosage levels of Soluble Oak before adding to your product.

STORAGE & HANDLING

- There are no added preservatives in Soluble Oak. The tannic acids in oak serve as a natural preservative.
- Store in a cool protected location (below 70°F/21° C) . It is ideal to use Soluble Oak within 6 months of the production date (though the shelf life is up to 12 months if stored properly).
- Once packaging is opened, press excess air out of package and reseal. Use within one week of opening.
- Minimize exposure to oxygen to maintain product stability and flavor.
- Once mixed into beverages, the Soluble Oak benefits remain stable.

DISCLAIMER

- We recommend that manufacturers fully test Soluble Oak to determine the suitability for their own products.
- Determine the dosage level for mouthfeel, then add an additional dosage to reach your desired oak profile intensity.
- Please check our website for updates.
